

Navy Keys on Personal Development

Task Force EXCEL (Excellence through Commitment to Education and Learning), the catalyst of the Navy's Revolution in Training, is making a radical statement: Sailors are people too.

The revolution is a fleet-wide initiative revamping current training and education structures, and creating an environment of learning that promotes growth by giving Sailors the tools and opportunities to learn, grow and lead.

Task Force EXCEL emphasizes the need to develop Sailors holistically, focusing on both professional and personal growth.

The personal development vector is one of five areas of concentration on the Sailor Continuum, designed to provide incentives to Sailors to develop themselves and also hold leaders accountable for their people's development.

Task Force EXCEL is creating a developmental eco-system where all elements of education, development and growth are inter-woven and constantly calibrated to ensure maximum success.

Six clearly defined competency clusters comprise the personal development vector: values, lifelong learning, life skills, financial-management skills, health, wellness and recreation, and interpersonal relations.

The Revolution in Training is the CNO's No. 1 action item for his second year in office. He is committed to arming Sailors with the tools and opportunities to grow and excel.
